2021 - Present Hyderabad

CERTIFICATION

Core Java

gained the knowledge and skills needed to become an object-oriented programmer using the Java language. In the four courses of this specialization, learners mastered the Java programming language and the packages that constitute its rich set of core libraries.

Python Data Structure

gained the knowledge in principles of data structures & how they are used using python.

PROJECTS

Blood Bank Management System

Developed an web-based application for persons who like to donate blood register in the Blood Bank application. The persons in need of blood search for the persons having the same blood group and within the city. If he found a donor in his city then he gets the total details of the donor, if he doesn't find any donor then he is given the contact numbers and addresses of the Life-Saving Contact Persons for major cities.
